

Turnkey Facilities Solutions for Energy-Efficient LED Lighting

Offering installation & service nationwide

KEY BENEFITS OUR CUSTOMERS EXPERIENCE

Upgrading to LED lighting systems with us can lead to:

50-70%

reduction in lighting energy consumption, on average

100%

compliance with local, state, and federal regulations

300-500%

longer product lifespan for LEDs over fluorescent lights

Partner with us to take your lighting projects from idea to reality

- **Over 30 years of experience** delivering lighting solutions
- **More than 5,000 lighting projects completed** for healthcare, commercial, and industrial facilities
- **Solution simplicity and expert guidance** through regulations, supply chain challenges, and financial incentives to maximize your savings

Earth Savers Energy Services

End-to-end LED and smart lighting solutions

As a trusted LED and smart lighting solutions leader, we guide you through **strategic planning, implementation, ongoing optimization, and maintenance**. Our focus is always on results — lower energy costs, optimal workplace environments, sustainability enhancements, and operational efficiency.

EARTH SAVERS CUSTOMER SUCCESS

Public Storage

Public Storage, the largest brand of self-storage services in the United States, worked with Earth Savers to upgrade interior lighting in their 2,000+ nationwide facilities. We improved energy savings and lighting quality throughout lobbies, storage hallways, utility rooms, and restrooms.

Solutions Delivered

- Interior LED lamp with ceiling occupancy sensor controls upgrade
- Emergency lighting & exit sign LED retrofit

Results

Annual kWh savings of 14,597 per facility in addition to reducing maintenance costs and improving customer safety
